

## DEATH SENTENCE FOR AMERICANS

Four Sentries Found Asleep in Front-Line Trenches in France

### CASES REFERRED TO WAR DEPARTMENT

This, Though Gen Pershing Has Power to Carry Them Out

Washington, March 1.—Four American soldiers, caught asleep while doing sentry duty in the front-line trenches, have been sentenced to death, but General Pershing, although he has authority to carry out the sentences, has referred their cases to the war department for review.

These are the first cases of the kind since the American troops went to France. One soldier has been executed there for rape of a French child, and his case General Pershing acted swiftly without referring to Washington.

In the case of the sentries, however, some extenuating circumstances may be found for the men, tired and nerve-worn by front-line trench duty in a hitherto unknown manner of warfare. President Wilson probably, in the end, will review their cases. Going to sleep on sentry duty has long been recognized as an unforgivable offense, punishable by death.

## Look and Feel Clean, Sweet and Fresh Every Day

Drink a glass of real hot water before breakfast to wash out poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, suffering headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisons, stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it, to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

## FACE DISFIGURED WITH PIMPLES

Also On Hands, Itched and Could Not Put Hands in Water. Cuticura Healed.

"My face and hands broke out with pimples. They began to run and itch, and were sore and inflamed. I kept scratching which kept them irritated, and I could not put my hands in water. I could not sleep. My face was so disfigured that I could not go out. I got Cuticura Soap and Ointment. I had the eczema about three weeks, and in about five days the eruption began to dry up, and when I had used one box of Cuticura Soap and one and a half cakes of Cuticura Soap I was healed." (Signed) Mrs. Hazel St. John, R.F.D.1, Box 20, Barre, Vt., Nov. 4, 1917.

For hair and skin health Cuticura Soap and Ointment are supreme. Sample Each Free by Mail. Address postcard, "Cuticura, Dept. H, Boston." Sold everywhere. Soap 25c, Ointment 25c and 50c.

## Used Cars

I have a few used automobiles that I have put in first class condition, and am sure that the prices will interest anyone wishing a bargain. Call at garage and look them over.

## THAT LIVER IS NO GOOD

that is so busy it lets the skin do part of its work. The skin turns yellow doing it. Such a liver upsets the whole system. Take Hood's Pills, they put the liver to work; best for biliousness, yellowness, constipation. Do not irritate nor gripe. Price 25c, of druggists or C. L. Hood Co., Lowell, Mass.

## RICH MUST PAY. SAYS SCHWAB

Eighty Per Cent of Cost of War to Come Out of Incomes and Surplus Profits, Declares Steel Man.

Bethlehem, Pa., March 1.—Charles M. Schwab, speaking at a banquet here Wednesday night in connection with the Knights of Columbus war work fund, said the aristocracy of the future is not going to be made up of people born to position and control through purple lineage and wealth, but by the people who work. The burden of the war is going to fall on the United States, Mr. Schwab said. He added:

"Eighty per cent of the cost is going to be paid from incomes and surplus profits. The rich will be obliged and they are willing to bear their share and more than their share to conduct this war to success. This is not the time to think of accumulation of fortunes, but how much can we give. Not a dollar I can borrow or pledge will I fall to give this government to win the war. Profits are going to be cut down. Bethlehem Steel made profits of only 9 per cent on business done last year. That will be cut to 5 or 5½ this year. Between the steel company and myself we will pay the government over \$25,000,000 this year, and I am proud of the steel company for what it can do for the country."

## RANDOLPH CENTER

Hadley MacPhetres Writes of Doings in France.

The following letter has been received from Sergeant Hadley M. MacPhetres, Bat. E, 101st Mass., F. A. of A. E. F.: January 27, 1918.

Dear Father, Mother, Brother and Sister: I will make this a letter to all, as it is hard to get around to write at all, our letters being limited to three a week. We received your letters all right and were more than glad to hear from you. Sorry to hear that father has not been very well and hope this finds him much better. Take good care of yourself, father, and don't try to do much hard work until you feel a lot better. Don't worry about us. We have the old Mac blood in us and can take of ourselves. Harland and I are both well and have felt fine, outside of a cold, ever since we left home. We can do anything now from a board nail to a Ford auto. The weather here hasn't been very cold, just enough to freeze, and we have had just enough snow to cover the ground two or three times, but the mud. It has rained nearly every day for the last month and we have all kinds of mud; you never saw anything like it for mud. We wear rubber boots nearly all the time. I think I wrote you that Harland was made a corporal some time ago. He and I both have a good horse.

The baby must be a dear now, and you bet we would like to see her. Give her a big kiss for us. Women working in the fields here are a common sight, and wooden shoes are very common. Give me leather for mine. Was a little surprised to hear that Will and Inez were back in Massachusetts, but hope he has a good job. Next month Harland and I celebrate our birthdays in France, but guess there won't be much celebration; we are getting old. Enclosed are some cards we had taken here. They are not very good, but will show you that we are in good condition and haven't lost any weight. What do you think of the kid's "misplaced eyebrow"? The other is a group of chums that were with us, but must close for the time, hoping this finds everyone well and happy. Write as often as possible and I will do the same. Hadley.

Everett Smith and Will Camp are drawing pulp wood to Royalton.

Mr. and Mrs. C. J. Hyde have a daughter, Maybelle Blanch, born at her mother's, Mrs. George Turner, at South Royalton, last week.

D. L. Loomis spent several days at Randolph last week and attended the funeral of an aunt, Mrs. Janette Harwood.

Miss Olive M. Hanks has been at home the past week, caring for her father, who was quite seriously injured by a fall.

Miss Lena Camp is at the home of her parents, having German misses.

Mrs. Spaulding and Charles, also her mother from Springfield, Mass., came Monday to D. L. Loomis.

A party was tendered Mrs. Ethel R. Ridd Saturday evening in honor of her birthday anniversary. Many of her young friends were present. There was a very enjoyable musical program, with a harmonium, violin and piano quintet which figured in the entertainment. Refreshments were served.

Mrs. Archie MacPhetres is at the home of her parents, Mr. and Mrs. Mark Stoddard, in Brookfield.

Piles Cured in 6 to 14 Days.

Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. Instantly relieves Itching Piles, and you can get restful sleep after the first application. Price 50c.—Adv.

## Grandma Never Let Her Hair Get Gray

She Kept Her Locks Dark and Glossy, with Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound, and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.—Adv.

## AERO BRANCH IS IMMENSE

The Signal Corps Is So Big It Will Be Decentralized

### DIVIDED INTO FOUR DEPARTMENTS

Steps Being Taken to Reduce the Number of Accidents

Washington, March 1.—The signal corps has been expanded so greatly since the war began that it is about to be decentralized. The general staff soon will recommend creation of four signal corps departments corresponding to the six departments of the army.

The general headquarters of the signal corps will be in Washington. Its eastern department will comprise the same territory as the northeastern and eastern departments of the army. The headquarters will be on Governor's island. Its southeastern department will be the same as the army's southeastern department. The headquarters will be in Atlanta or Charleston, probably Atlanta. Its southern department will be the same as the army's southern department. The headquarters will be in San Antonio. Its western department will be the combined central and western departments of the army, headquarters Chicago.

The officers who will command the new departments have been selected, but their names have not been officially announced. It is known, however, that Brigadier General A. L. Dade will be placed in charge of one of the departments. The other departments will be headed by colonels who will be raised to the rank of brigadier general. Colonel W. L. Chitty, who has been in command of the four Kelly fields at San Antonio, is one of the officers who will be promoted and who will be placed in command of one of the departments. Another is Colonel H. O. Williams.

The growth of the signal corps, which includes America's great army of the air, has been greater than all other technical branches. At the outbreak of hostilities the signal corps was spending small sums of money, and had only 140 officers and 3400 men. The latest figures, those made public a month ago, revealed that the corps was spending a billion dollars and that its personnel at that time comprised 30,000 officers and 150,000 enlisted men.

The greatest popular interest in the signal corps is of course in the aviation section, but it has many other duties. They include installation, operation and maintenance of military telegraph and telephone system and radio shop and shore stations installation and maintenance of large range communication systems; supply of signal unit accountability equipment of the several components of the army and supply of material for maintenance of fire control systems and radio and signal stations of coast defense.

Major General George O. Squier is the chief officer of the corps. He is assisted by Brigadier General Charles McK. Saltman and many scores of other officers called from the regular army, National Guard and civil life.

### TO PREVENT COURT DELAY.

Vermont Supreme Court Will Affirm Judgment When Cases Are Called.

Included in the amendments to the rules of the Vermont supreme court, becoming effective on March 1, 1918, is a rule providing that cases standing for hearing on the trial calendar will be affirmed when reached unless ready for hearing or cause is shown for delay or continuance. The rules are as follows:

"Rule 1. By striking out all after 'case' in line three of the end."

"Rule 4. Section 1, to read: 'Cases shall be triable as soon as the time for filing briefs has expired (50 days from the filing of the completed bill of exceptions or motion for appeal, unless the time is extended pursuant to rule 6, Sec. 2). Such case shall stand for hearing at the general term next following or during which they become triable, unless otherwise stipulated by the parties, if a civil case, or unless ordered for hearing at a special term under the provisions of the following section.'

"Rule 4 is further amended by adding the following sections: '3. The clerk of the general term shall seven days before the opening of a term make and distribute a list of the cases then standing for hearing, to serve as a trial calendar for that term, and shall add thereto cases thereafter ripening for hearing before or during such term.'

"4. Cases standing for hearing on the trial calendar will be affirmed when reached unless ready for hearing or cause is shown for delay or continuance."

"Rule 5. Section 1, to read: 'Fourthly on the filing of the completed bill of exceptions or motion for appeal the advanced party shall prepare and deposit with the clerk not less than 15 printed copies of the case. The clerk shall, as soon as he receives such copies, endorse thereon the date when the completed bill of exceptions or motion for appeal was filed and shall forward one of them to each attorney of record in the case. He shall at the same time forward the remaining copies to the clerk of the general term.'

"Rule 6. Section 1, by adding thereto: 'When the bill of exceptions refers to the transcript and makes the same controlling, the filing of the transcript shall, for the purposes of this and the preceding rule, be deemed the completion of the exceptions.'

"Rule 6. Section 2, to read: 'In case the advancing party shall fail to prepare copies of the case or to file his brief within the time limited therefor by the court may, on motion, affirm the judgment or decree below; and no party in default under the provisions of the preceding section will be heard unless by consent of his adversary or leave of court. The court, or a single justice in vacation, may, on motion made for cause shown, extend the periods prescribed in the preceding section. Such an order in vacation shall be filed with the clerk of the general term.'

"Rule 11. To read: 'The court will not sit on Mondays, Saturdays, legal holidays, nor the day of a general election.'

"The foregoing amendments to the rules of the supreme court are hereby adopted to take effect March 1, 1918."

"John H. Watson, 'Chief Justice."

"Seneca Hazlett, "George M. Powers, "William H. Taylor, "Willard W. Miles, "Associate Justices."

## Report Many Cases of Rheumatism Now

Says we must keep feet dry; avoid exposure and eat less meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather, the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this uric acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent, lithia-water drink, which overcomes uric acid and is beneficial to your kidneys as well.—Adv.

### THE LATE A. W. DANA.

Former Principal of Goddard Was a Leading Figure in Topeka.

The Topeka, Kansas, Journal, of Feb. 21 contains the following obituary of Judge A. W. Dana, formerly principal of Goddard seminary, who died in Topeka on that day:

"Judge A. W. Dana, one of the foremost men in Topeka and a resident of the city since 1887, died at 2 o'clock this afternoon at his home, 1028 West 10th avenue, following a long period of ill health. Judge Dana suffered a slight spell of indigestion on Thursday, but went downstairs Friday feeling much improved in health. Suddenly he fell in a faint and was unconscious until the hour of his death, excepting a few short intervals. He was 61 years old at the time of his death.

"Judge Dana was born at Ht. Holly, Vt., May 5, 1857. He was educated at Goddard seminary and at Tufts college, being graduated with the degree of Ph. B. in 1884. Following the completion of his education he entered the teaching profession and was principal of Goddard seminary for four years.

"The call of the west was answered by Judge Dana in 1887, when he came to Topeka to make his permanent home. In 1889 he was admitted to the bar and soon entered into the active practice of the law, becoming the junior member of the firm of Tiltonson & Dana. Later he became a member of the firm of Bergen & Dana and still later practiced alone.

"Judge Dana was one of the men who helped to give Washburn college law school the enviable reputation it enjoys to-day, always having been a loyal friend of the school and its students, and having at one time been connected with the faculty. Judge Dana was elected judge of the district court of Shawnee county in 1904, and held the office continually until his death.

"Judge Dana for years was fairly swamped with work in the Shawnee district court. He remained faithful to his post and for years withstood the fearful drain on his vitality and nervous system, occasioned by his important position. Finally, the work became so heavy that the legislature of 1911 created an extra judicial district for Shawnee, Wyandotte and Sedgewick counties and Judge George H. Whitcomb was appointed judge of the second division.

"During the early winter Judge Dana faced extremely heavy court work, and his close friends noted that he was breaking under the pressure. He persisted in working until about two months ago, when he was stricken with paralysis, necessitating confinement in his home until two weeks ago, when he again returned to the bench.

"For a week he worked around his office at light duties, planning to begin the heavy court work as his strength returned. While he died of gastric trouble, foreign from the paralysis, it is thought the stroke suffered prior to the attack of indigestion did much to lessen his power of resistance.

"Judge Dana always was a prominent

member of the Shawnee County Bar association, and at the time of his death was president of the State Bar Association. He was a thirty-second degree Mason, a member of the Elks' lodge, and until recently was a member of the Country club.

"Since his serious illness conversation by attorneys showed the love and respect they had for the man who had presided over their cases for so many years. Such men as John Schenck, Judge Hazen, E. D. McKeever and Otis Hingate called at his house daily to ascertain his condition. His re-election

"Bringing up several children in the right way and cares of home brought me to the verge of nervous prostration," says a well-known woman. "Fearing that I might become ill and have to give up housework and the care of my little ones, created a nightmare that was ever before me, I happened to mention my affliction to one of my neighbors, and she advised me to procure some Phosphated Iron. A day or two later, when I was feeling unusually miserable, I sent my daughter to the drug store for a box of the capsules, and after ten days' treatment I felt like a different person altogether. I sleep well at night, something I hadn't done in months before; my appetite is good and in fact what formerly seemed like mountains of work in my home is now more like play. An aunt of mine living over East has been taking Phosphated Iron with equally gratifying results."

Phosphated Iron is put up in capsules only. In this locality it can be obtained at E. A. Brown's, the druggist, and leading druggists everywhere.—Adv.

# You Want Good Tailoring in Your Clothes!

Some people think that they get the best tailoring by going to a custom tailor and having their clothes made to measure.

Like a good many other ideas, it's only partly true; the part that's true is so small a part that it can almost be disregarded. The best tailoring is done only by the best tailors; and there are just two ways to get it.

If you have your clothes made to measure, the only way to get the best tailoring is to pay a high price for clothes; that's one of the things that makes them high priced. If you pay \$75 or \$80 for a suit made to measure, you ought to get the best tailoring, and if you do get it—all right.

But the "cheap" tailor—why, it's the kind of tailoring he does that makes him cheap. The only other way to get the best tailoring is in fine ready-to-wear clothes. They're made by the same sort of craftsman the fine tailor employs; the work is done in much the same way.

## Hart Schaffner & Marx

for example, employ the best tailors known; instead of having one man make the whole coat, however, the work is subdivided and specialized, each part done by an expert in that part. If anything, the work may even be better done in this way than by the custom tailor.

If you want real quality of workmanship in your clothes, don't expect to get it "cheap". We'll show you some of the real thing here from \$18 to \$40.
